

# Empowering Business Through Technology.

**Manage Protect** is passionate about empowering our valued partners who are trusted Managed Service Providers (MSPs) to thousands of Australian and New Zealand businesses.

Every day our partners deliver better security, business continuity and productivity solutions to their clients with our services.

# Who is Manage Protect?

Manage Protect is a technology company delivering integrated best-of-breed cloud solutions and local technical support.

We are 100% channel focused. We only sell through our partners, so we will never directly compete with partners for business.

**Bringing together  
cloud services.**

**Commitment to  
partners.**

**Quality local  
support.**

**Learn more about Manage Protect.**

## Manage Protect delivers cloud technologies specialising in the areas of:

### Cyber Security

The protection of computer systems, networks and information from digital crime or cyber attacks.

### Business Continuity

Enabling businesses to function during disruptive events and recover following an incident.

### Business Productivity

For smarter and more efficient work environments.
